

Masters of DISASTER ANALYSIS MANAGEMENT & MITIGATION

2020/2021 Intake

Master of Science in DISASTER ANALYSIS MANAGEMENT & MITIGATION

2020/2021 Intake

Sri Lanka is prone to many natural hazards that result in vast damages to living beings and infrastructure. A proactive approach for disaster and risk management is widely acknowledged by both policymakers and practitioners in the field of disaster management. Disaster management and mitigation should be addressed emphasizing risk identification, assessment and analysis aspects rather than commonly practiced post-disaster approaches.

For Whom?

These programmes are recommended for mid-career professionals who work in diverse sectors and environmental-related professionals/students to expand and upgrade their knowledge and skills in disaster analysis, management, and mitigation.
