

BE A PART OF AN EXTRAORDINARY TEAM

Sri Lanka's National Mobile Service Provider, Mobitel strives to provide innovative telecom solutions to the nation whilst transforming the local telecommunications sector to be on par with global standards.

As a part of our workplace culture, we strive to maintain a dynamic and rewarding environment where our young and energetic workforce is provided with equal opportunities, training and guidance to reach greater heights. This is your opportunity to be a part of this stellar workforce.

Senior Manager - Network Monetization & IoT

JOB ROLE:

- Ensure optimal capacity and coverage of technologies available in the network according to forecasts and network demand.
- Manage and implement PoCs and trial deployments for enterprise customers whilst developing and compiling RFP documentation for IoT and Network Slicing requirements of same segment.
- Maintain network capacity and coverage database for all technologies and propose strategies for optimal utilisation.
- Forecast network requirements for IoT and enterprise customer solutions.
- Research and summarise new technology initiatives and trends for Management decision making.
- Educate and train Enterprise Sales & Marketing teams on network features for increased monetisation of the network.

QUALIFICATIONS & EXPERIENCE:

- Candidate should possess a Bachelor's Degree in Electronics/Telecommunications/Computer Science from a recognized university.
- Postgraduate degree / Master of Business Administration (MBA) would be an added advantage.
- Minimum 08 years of managerial experience in a technology intensive role along with minimum 03 years' experience in training and development of technology solutions.
- In-depth knowledge of network architecture, software development and technology forecasting.
- Good understanding of basic Marketing and Business principles.
- Should be an innovator with confidence to challenge the status quo.
- A good team player with excellent negotiation skills, communication skills and fast comprehension.
