

Immediate Vacancies - Research Staff South Asian Clinical Research (SACR)

South Asian Clinical Research (SACR) is the administrative arm of the South Asian Clinical Toxicology Research Collaboration (SACTRC). SACTRC currently runs several multi-center research projects on the prevention and treatment of acute pesticide self-poisoning in the developing world, with the aim of reducing suicide deaths in Asia. Our work is supported by the UK's Wellcome Trust, Australia's NHMRC, US's AFSP and the Ministry of Health, Sri Lanka.

One of our main focuses as a collaboration is the building of research capacity within Sri Lanka and in Asia, by supporting local researchers. We carry out Randomized Clinical Trials (RCT) and observational studies through the public healthcare system of Sri Lanka, with the cooperation of the Ministry of Health.

We are looking for committed professional to serve our organization.
