HNB Assurance PLC is currently looking for a suitable candidate to fill the following vacancy:

Associate Software Engineer (PHP)

Job Role:

- Responsible for the software development activities including developing, verifying and managing the change requests for one component of a project solution.
- Responsible for testing software functional, design and quality requirements for the components.
- Writing clean, maintainable & well tested code.
- Following the software development lifecycle.
- Documenting and demonstrating solutions by developing documentation, flowcharts, layouts, diagrams, charts, code comments and clear code.

Job Pre-requisites:

- Advance Diploma in Software Engineering / IT or equivalent qualification.
- One year of experience (minimum) in software engineering and development using PHP.
- Experience with at least one of the PHP frameworks (Laravel, Zend).
- Experience with MYSQL, MSSQL and ORACLE Databases.
- Basic understanding of front-end technologies, such as JavaScript, HTML5, and CSS3.
- Experience in payment gateway integration.
- Ability to work independently with minimum supervision.

If you believe you are the right person we are looking for, forward your complete resume together with contact numbers and the names of two non-related referees to reach us within 10 days of this advertisement by email to hr@hnbassurance.com (state the position applied on the subject line).
